The Michigan Assembly

Proposal

Designation GA-20250014

The Land and soil of Michigan and private property belongs to the living sovereign American people on Michigan; not subject to foreign jurisdiction or regulation

Proposal Information

Proposal Question: Shall the Michigan Assembly re-declare for the public record, our Common Law “Line in the Land” in our Resolve to enact the established Law and clarified in our current “Definitions of the will of the people...” as found in attached document entitled: The Land and soil of Michigan and private property belongs to the living sovereign American people on Michigan; not subject to foreign jurisdiction or regulation?

Describe how this proposal serves and/or protects the people on Michigan:

Our Resolve: to enact established natural law: The Land and soil of Michigan are private property (called “Real Estate” by Pirates), as well as the Home, contents and furnishings and do in fact belong to the living American people on Michigan and therefore not subject to tax, levy, lien, foreclosures, forfeiture, re-possession, mortgage and securities fraud, fraudulent transfers, imminent domain, Search and or Seizure, license, permit, registration, easement, ZIP© or any manner of offenses including and not limited to: Inland piracy, unlawful conversion, human trafficking, barratry, fraud and as defined with current clarifications in the attached support document under title of: “The Land and soil of Michigan and private property belongs to the living sovereign American people on Michigan; not subject to foreign jurisdiction or regulation”. And, ”

It proclaims what has always been the case; The Fraud that has been going on is null and void from the beginning.

Therefore, The Sovereign’s in Delegation of Authority on Michigan Nation State move to protect our people;

This is the will of the people:

No More. Line peacefully drawn in the Land; enacted now.

We the people

Outreach Proposal History: The Land and soil of Michigan and private property belongs to the living sovereign American people on Michigan; not subject to foreign jurisdiction or regulation

this is a new capture of the history created to condense it to one document rather than, on the proposal form November 11, 2025

With apology, There have been many issues with publishing this proposal history. Tech limitations caused proposal upload issues and a several proposal versions which have been too long for a basic proposal form. This is all preserved in attached documents. please see there for all details.

I asked and was given authorization to update this proposal for Special Session to fix the formatting and present more professionally to the GA and world which is done in this release proposal version. Thank you for your grace in my struggle with technology.

Summary:

Intention matters. please consider this. I ask for the flexibility from GA tonight, in special session, to please allow for any final

publishing amendments live or in the final preparations for publish that minor errors or punctuation or format be permitted corrected for the record to show with most honor.

There are split views for this Intended proposal – A few in The Michigan Assembly, General Assembly do not want to make Law. And believe our making law would legitimize the crimes if we command the law. And want less words.

This is a proposal which needs a date/time stamp for American's with pending legal actions looming eminently.

Given the U.S. Chapter 7 Bankruptcy and District of Columbia vacancy – our time is ripe to claim our Land and private property in peace and in lawful process.

This document is admittedly not perfected. And many have, since dialogues began, brought additional amazing offerings which in amendments can and should be a included with TMA attention in future days to the protection of our Land, private property and wo/men. Thank you all!!

And, for today... this proposal and it's intention is better than anything we are currently living under without it.

Please consider this move to our rightful claims in a yes vote, with the power to amend as we deem needed – whenever we choose.

We are the people in Sovereign Delegation of Authority on Michigan
thank you.

History

Date Initially Written: October 28, 2025

Initiated by: Kimberly Watling

Origination Details:

This proposal was originally brought in concept to The Michigan Assembly in spring of 2025 by Kimberly Mayer Watling. Due to other interferences within the assembly and re-arranging of roles; the strategies committee begun to pursue this work became tabled. In this time loss, and the passing of the task back to Kimberly; and with time sensitive actions now needed from this Assembly; I move this forward in urgency to help our men and women facing being forced from their homes over the winter beginning in the next few weeks. Given the urgency brought forth and in conversations with The Michigan Assembly Marshal At Arms regarding the protection needed for now GA members in addition to our men and women we are duty bound to protect; move has been necessitated now. Our intention is clear. We can amend as needed, and we must take the first step to this end and have something to stand on as we go in every attempt to protect our people. And, Proclaiming and enacting this Law; gives us grounds to call on the Army and or National Guard for help with enforcement for violations of sovereign rights, international trespass and many other laws including oath's to The Constitution.

Dissenting Voices of Men and Women:

Updated: November 11, 2025.00

November 6, 2025.00 – The Michigan Assembly contains men and women who do not want to write Law. And not to “legitimized” defacto actions. And wanted less words. and feels the outreach proposals are a distraction from Assembling and pillar building with time being wasted.

Defense: 25.00 voting men and women showed up, first time ... why? This proposal means something “for real” in living men and women’s lives now. Something in their core, they can get behind. The substance with real life meaning hoping for men and women to enact this Resolution into current time and reality.

Original:

Why are you doing this? we cannot enforce it...

Answer: If one does not express it; one can not claim it. If we the people do not express our requirements then, we cannot expect they will become our reality. It is a time stamp and a measure to use in our courts when they are up. It will expedite cases of these trespasses against American men and women by date stamp and the penalties will have been provided in advance of said acts against Americans. No wishy washy state of semantic deceit can prevail if Noticed expressly of our requirements from our public servants. Once we can enforce our courts; remedy can be quickly accessed for already harmed Americans; needing not be re-traumatized by having to create a case in law. This gives all men and women firm ground to stand on, as time stamped, and will expressed; where once there was no ground to firmly stand on. We are the way.

Document History going into Outreach Committee

November 6, 2025: proposal sent back to committee November 4, 2025: – The Michigan Assembly is reviewing this and will vote in special session on Tuesday November 11, 2025.00 7:00pm EDST.

Oct 28, 2025:

Urgent: Good men and women of The Michigan Assembly General Assembly, this is urgent. Our American men and women, even within our General Assembly are eminently under attack and threats of harm by rouge STATE OF MICHIGAN principals and agents on Land and soil of this great Nation State. We are duty bound to protect our people and our lands; We must act now and amend later if necessary. Men and women among us face winter without homes; their lands, private property under attempted seizure under Inland Piracy, Barratry and other egregious crimes against humanity. Not on our watch. No more. As the sovereign delegators in authority we are required to move to re-claim our Land and soil once conceded to The Federal Government; now proven infiltrated it is our responsibility to claim our Land and soil and work with BLM Bureau of Land Management to secure all Land Patents on Michigan State. And in so claiming we return the Land and soil to the people and simultaneously grab the reigns on our current rouge sub-contractors and order them to stop the taxation of all American private properties:

Removing declared Americans from the Tax Roll(s); and

Facilitating Land Patent claims; and

Terminating all ‘in action’ processes upon Americans on Michigan; and

Remove all participation or contact from the Tax Roll; and
Correct all public records and place public announcements in perpetuity in all local STATE offices and places of announcement and sent to all/every man and women on the Tax Roll via USPS every year on the same 2.00 days the previous "TAX BILLS" were sent out to all community men and women – this announcement will be provided by The Michigan Assembly in lawful process at a future date.

Proposal

Designation GA-20250015

Abbreviated Elections

Proposal Information

Proposal Question: Shall we approve “Steps for Abbreviated Elections” for electing people to Assembly roles during a single GA meeting during this current emergency situation in November, 2025?

Describe how this proposal serves and/or protects the people on Michigan:

This workflow will allow the Assembly to quickly put a man or woman into a role so we can establish a court on Michigan for the Land and soil. Since the Federal Government subcontractors are currently shut down and the courts they have been operating no longer exist, we could be subject to foreign military tribunals if we do not have our court established. Military tribunals can execute people at their whim.

Origination Details:

From GAWGMOM-0070, Item #105, 11/5/25

Procedure for Emergency Elections

The Federation Fiduciary (Anna) exhorted the assemblies to get their courts up now during the MopAndBucket Countrywide Coordinator Training last Thursday (10/30/25), starting at timestamp 0:59:20.

We do not have people in roles for our court and we need to get them elected now. How do we make this happen?

We looked at Anna's video.

We believe we need to come up with a method for electing people into roles during a single GA session, when necessary. This is something different from what we did a year ago when we elected people in current roles, when we did it over a number of weeks. The guidelines we are currently working on reflect what we did last year.

We also believe we need to define the bare minimum roles we need to populate to be able to claim we have our court up.

Having at least twelve (12) people who are papered up would be best for our jury.

This would be for the protection of Michigan Assembly members only, at this time.

Committees Consulted and their Input:

Dissenting Voices of Men and Women:

Notes/Timeline:

This is being done to get protection in place for Michigan Assembly members at this time, and the intention is to build out the Land and soil courts for all ASNs on Michigan in the long run. When the Assembly is standing we will notice the Federal subcontractors that we are invoking ex parte Milligan.

This proposal and work flow is not intended for addressing anything other than keeping Assembly members safe from any tribunal courts. We are not ready for anything else at this time, including any disputes between Assembly members and ASNs.

Proposal Implementation and Status

Implementation Plan:

This work flow can be used during a special GA session on 11/11/25 to elect people into roles, should the GA approve this proposal.
